WORKSHOP DE MATEMATICĂ ŞI INFORMATICĂ - ediția a X-a

28.02.2025, ora 12:00, sala de conferințe L2 de la ICDT

PROGRAM

Chair: Prof. dr. **Radu Miculescu**

12.00 – 12.15 **A. Apostol, M. Nuțu**, *Arrhythmia Classification from 12-Lead ECG Signals Using Convolutional and Transformer-Based Deep Learning Models*

12.20 – 12.35 **A. Ciobănaș (Siemens Industry Software)**, *Scalable Operator Inference for Real-Time Process Digital Twins: Efficient and Explainable Surrogate Modeling*

12.40 – 12.55 **I. Abraham**, *The Invariant Measure for an at most Countable Topological Generalized Iterated Function System*

13.00 – 13.15 **B. Anghelina**, *The canonical projection associated with a mixed possibly infinite iterated function system*

13.20 – 13.35 **L. Csillag**, *Schrödinger connections: from physical implications to Finsler metrizable*

13.40 – 13.55 **N. Voicu, L. Ducobu**, *The variational bootstrapping method in metric-affine gravity*

14.00 – 14.15 **M. Neagu, E. Ovsyuk**, *From Pikovsky-Rabinovich Dynamical System to Lagrange-Hamilton Geometrical Objects*
