<https://drupal-coding.com/>    [sin@kubsu.ru](mailto:sin@kubsu.ru)

Going to present my recent research projects:

1. AnyWalker – non anthropomorphic walking robot (finished);
2. Brain Angiography Computer Tomography automated analysis (ongoing);
3. IT labour market automated analysis and matching to educational content (ongoing).

Also I'd like to share information about my faculty and colleagues research.

I teach and would be happy to exchange the experience in:

1. Web development (bachelors);
2. Functional and logic programming (bachelors);
3. Multimedia digital processing algorithms (bachelors);
4. Blockchain (masters);
5. Model Checking Verification (masters).
